 Project location: _____
 Proposal due by: _____

9. What type of control will be used with the panel?

10. Is 30 mA GFPE required?

Yes No

11. What type of monitoring do you need?

- Ground fault
- Over current
- Low current
- Other: _____

12. Are audible alarms required?

Yes No

13. Are dry alarm contacts required?

Yes No

Comments:

Circuit #	Type of cable	Length of cable on circuit <input type="checkbox"/> ft. <input type="checkbox"/> m	Estimated load on circuit (Amps.)

Download, fill out the form and submit one of 3 ways:

- Print and fax to (877) 335-3166
- Save as PDF and email to info@britech.ca
- Click the SUBMIT button on the form

FAX or EMAIL your project drawings to:
 info@britech.ca

SUBMIT FORM

1. What type of panel is requested?

- Circuit breaker panel w/control
- Monitor/control panel pass-through circuits (no breakers)
- Remote indicator
- Other, please specify: _____

2. If main breaker is required, what is the supply voltage?

3. What is the heater supply voltage?

120V 208V 240V 600V

4. How many circuits required? _____

5. What is the type and length of each cable per circuit?

6. What is the estimated load per circuit?

7. Panel enclosure NEMA rating? _____

8. Is the panel surface mounted?

Yes No
