Proposal due by: \_\_\_\_\_

**1. What voltages are available?**

- 120V       240V  
 208V       277V

**2. What are the dimensions of the area(s) you plan to heat?**

\_\_\_\_\_ Length x \_\_\_\_\_ Width  
\_\_\_\_\_ Length x \_\_\_\_\_ Width  
\_\_\_\_\_ Length x \_\_\_\_\_ Width

**3. Will the cable be in conduit or direct contact?**

- Conduit       Direct contact

**4. What is your heat loss calculation?**

\_\_\_\_\_

**5. What is the thickness and R-value of the insulation under the floor?**

\_\_\_\_\_

**6. What is the operating temperature of the freezer?**

\_\_\_\_\_

**7. What will be stored in the freezer?**

\_\_\_\_\_

\_\_\_\_\_

**8. Will the system control be inside the freezer?**

- Yes  
 No
